OUR ENERGIES
FOR THE ENERGY
TRANSITION**

EDF GROUP IN GERMANY

- Present in Germany for more than 25 years and aiming at supporting the energy transition in Germany and Europe.
- Developer of renewable energies in Germany with about 1GW of wind and hydro power plants under management.
- Provider of innovative business models such as batteries for commercial & industrial customers, as well as flexibility services.
- Developer and operator of green hydrogen infrastructure for industry and mobility applications
- Provider of energy services for B2B customers based on the high expertise of the Group worldwide, and first mover regarding new digital services.
- Driver of the urban energy transition in Germany (integrated urban planning, smart energy systems, urban infrastructure, etc.).
- Leading player in power, gas and emissions trading in Germany.
- Provider of engineering services for decommissioning and dismantling of thermal and nuclear power plants.

 ENERGY EFFICIENCY

RENEWABLE ENERGY

- **EDF Renewables**
Wind farms development, construction and asset management
- **REETEC**
Services, installation and maintenance of onshore & offshore wind farms
- **THEOLIA NATURENERGIEN**
Asset management of onshore wind farms
- **OWS – OFFSHORE WIND SOLUTIONS**
O&M offshore wind farms

ENGINEERING & SERVICES

- **EDF Deutschland**
Business development, innovation and public affairs
- **e2m**
Direct marketing, flexibility & virtual power plants
- **EDF Trading**
Wholesale market trader in German power, gas & emissions products
- **Framatome**
Nuclear engineering and services
- **Thyssengas**
TSO gas
50% ownership
- **EDF Gas Deutschland**
Gas storage

SMART CITY & INNOVATION

- **EIFER**
Joint research institute between EDF and the Karlsruhe Institute of Technology
100 researchers
- **Ubitricity**
Innovative electric vehicle charging solutions
19% ownership

BATTERIES & HYDROGEN

- **EDF Distributed Solutions**
Battery storage services for commercial & industrial customers.
- **Covalion**
Hydrogen and 1st/2nd-life battery storage
- **HYPION**
Green hydrogen project development in the north of Germany
- **McPhy**
Hydrogen production and distribution equipment
22% ownership
- **Sunfire**
High temperature power-to-gas systems.
13% ownership

EDF Group: the world's leading electricity company

1st...

... nuclear operator in the world
... European producer of renewable energies
... national power grid in Europe
... electricity supplier in France
One of the main European players in energy services

KEY FIGURES

- € 69.0 billion sales.
- € 15.3 billion EBITDA.
- € 2.5 billion net income.
- € 528 million average annual R&D budget.
- 584 TWh Group electricity generation.
- 90% Group carbon-free generation (1).
- More than 160,000 employees.
- 39.8 million customers.

2018 figures

(1) Direct emissions excluding the life cycle analysis of generating plant and fuel
